Choose your career pathway

Start with your goal. MentorPRO, CareerConnect and the PMI Job Board can be used independently or together.

CareerConnect: begin with free CV submission

Enquire about free CV submission, optional readiness support or relevant opportunity consideration. The team clarifies your goal, validates eligibility and explains the secure CV submission route. Prior mentoring or assessment is not required for the free CV route.

Optional readiness and partner support

Choose CV review, interview practice, AI or human assessment, or an available partner offer only where useful. The team explains scope, eligibility, availability, requirements and any fee before you opt in. Chapter-led paid services use the chapter's approved payment route; partner payment arrangements are confirmed separately.

MentorPRO: development and guidance

MentorPRO is a separate programme for mentoring, career direction, clinics, practice and professional development. A handoff in either direction is optional and transfers only the agreed information.

PMI Job Board: independent search

Use PMI's global Job Board for self-directed search and applications. Chapter CV submission does not create a global account, publish a resume or submit an application. The platform's own terms apply.

Send a CareerConnect enquiry

Your choices. Clear next steps.

Separate permissions

Participation in a service, your visibility preference and permission for a specific introduction are separate decisions. Before sharing, the team explains the role, intended recipient and exact documents. A decline or no response holds the introduction.

Visibility is your choice

Choose actively looking, selectively looking, private development or paused. Private and paused cases stop new recruiter sharing. Completing an assessment does not activate visibility.

A case owner and a next action

Ask who is following up and when to expect the next update. You can continue, change your preferences, return to development, pause or close. Interviews, offers, confirmed jobs and participant-reported jobs are recorded separately.

Private development stays private

The chapter does not provide its membership database as a recruitment list. Private mentoring conversations and notes stay outside recruiter packs. Send CVs and personal documents only through the approved secure process.

Programme contact: careerconnect@pmipunechapter.com
Chapter assistance: 99229 09060 / 86250 16630

The chapter supports preparation and connections. Employers and recruiters make their own selection and hiring decisions. Participation, assessment and an introduction do not guarantee an interview, employment, promotion, certification or placement.
